FAT BOY DIET

Your Mental Outlook Is Important

By ELMER WHEELER

You'd be surprised how important your mental attitude is in this reducing business. I'm losing weight day by day, but I'm sure I wouldn't be doing it if I didn't have confidence in my ability to reduce.

YOU SEE, there's a scientific saying: Where there's a will there's a way. Many doctors say, "If he'd only decide to live I could help him."

Some hospitals today won't operate if you say, "I don't think I'll come through."

It's mind over matter. That psychosomatic stuff we hear so much about today.

I better call a halt on this kind of talk, though. My wife thinks I'm nuts.

NOW I'm no doc or diet expert. I'm just an avid reader, a fat boy who came to his senses just in time to see a good doctor and to read a lot of books on how to keep trim.

I learned such valuable things as "two glasses of water weigh a pound." It is knowledge such as this that helped me to reduce.

I LEARNED that salt holds within the body 70 times its own weight in water. A spoonful of salt holds a pint of water and that pint, as the expression goes, "weighs a pound the world around."

No wonder that, after dousing celery, butter and all my vegetables with salt and more salt, I became waterlogged. Instead of passing through me and washing me out, water was prolonging the visit like a mother-in-law.

So I stopped this "mother-in-law of the diet" with its long drawn-out visits. I put a halt to salt.

I found that the cook did enough salting on an average to take care of my salt requirements.

I wasn't a miner. I didn't work in a steel mill. Things might have been different then.

I often broke up my crisp bacon into bits and boiled that salted the eggs all I needed.

I also used lots of pepper. This gave more flavor to foods requiring salt, that I could cheat on my salt.

(To Be Continued)

PLYMOUTH RESTYLED FOR 1953

The 1953 Plymouth Cranbrook 4-door sedan features a completely new appearance with 34 new style features. The new, low hood and one-piece constant-curved windshield provide exceptional driver visibility. A chrome speed-line sweeps back from the grille into the front fender, to be picked up again in the clean, straight-line

rear fender emphasizing the long, low look. Chrysler Corporation officials claim the new Plymouth also has 38 new performance and safety features as well as 21 new comfort features. An appealing selection of solid and two-tone colour combinations with blending interior trims, available in seven Plymouth body styles for 1953.

Dates Set For Group Annual Meetings Of Sturgeon School Sub-Divisions

MORINVILLE.—There will be two meetings in December in the Sturgeon School Division for electors and ratepayers to discuss school affairs. At the last meeting of the Sturgeon Division Board of Trustees it was decided to hold one of these meetings at St. Albert and the other at Gibbons.

Adults, Children Invited To Use Public Library

ST. ALBERT.—Parents and school children are reminded that this is Young Canada Book Week. The local public library, is situated in the Community Hall, where a good selection of fiction and non-fiction books—English and French—are available. You are invited to visit the library and to make use of this community service.

Natural Gas Well Reported

ST. ALBERT.—A major new natural gas discovery was reported Friday at the Stanolind-Imperial. ST. Albert No. 1 well west of Edmonton.

The gas was struck in the Viking sand strata at a depth of about 8,000 feet and gas flowed to the surface in one-and-a-half minutes at the rate of 3,000,000 cubic feet a day.

The well is about one mile southwest of the Central-Del Rio-St. Albert No. 1 oil discovery and the crew is drilling deeper to determine if oil is deposited below the natural gas.

Fire Destroys Wood Piles

ST. ALBERT.—Mrs. Anna Pies wishes to express her thanks to all those who assisted in helping her when fire broke out at her place recently. Fire started in the sawdust where a wood sawyer had cut up several piles of wood earlier in the day. Two burned wood piles were the only damage.

Dominion Tar & Chemical Plant To Be Expanded

Arthur H. Martin, president of Dominion Tar & Chemical Co., Ltd., recently announced plans for the expansion of Canada Creosoting Company's plant at North Edmonton. Canada Creosoting Company is a division of Dominion Tar & Chemical Company Limited, and is engaged in the preservative treatment of all types of structural woods and wood products at 12 plants across Canada.

Additional equipment and adjustment of present facilities will result in a 25 per cent increase in the North Edmonton plant's treating capacity. Some increases in storage facilities are also provided for.

The new equipment includes pole framing and mechanical hoisting machinery which will enable all year production of round wood products such as communication poles and pilings.

The new facilities will enable the Edmonton plant to treat with preservatives other than Creosote—Pentachlorophenol, for example. These facilities have been available at the Company's Calgary plant for some time. The expansion of the North Edmonton plant is a normal result of increases in the demand for treated woods by Alberta's rapidly expanding industrial development and extended farm electrification program.

The local plant is located in the North Edmonton area in the Town of Beverly. The new facilities are expected to be in use by early 1953.

Coronation Day Holiday In Canada

OTTAWA.—Coronation Day, June 2, 1953, is going to be a public holiday in Canada, government officials said they will make an official announcement soon in the Canada Gazette.

People generally fail to appreciate or even consider, what they receive for taxes paid.

Drumheller, Boy New World Wheat King

DRUMHELLER.—Ronald Drumheller, 19, of Drumheller, Alberta, is the new World Wheat King. He is the son of Mr. and Mrs. Alexander Leonhardt of Drumheller.

Ronald's first inkling of his success came to him on a radio broadcast Saturday morning.

Ronald was born in Drumheller, December 10, 1932, and has lived in this district all his life. A husky, good-looking youth, he stands 5 feet 10½ inches and weighs 130 pounds.

His parents came from Russia to Chicago in 1907, where Mr. Leonhardt worked as a farm labourer until 1911, when he came to the Drumheller district. They have farmed on their present farm since 1925. They have 400 acres.

Earlier this year Ronald attended the Junior Club Week at Olds where he was given a general agriculture course. Ronald won a \$75 scholarship in the grain club section of the course. The scholarship is toward expenses at a school of agriculture.

On April 28 of this year, Ronald seeded the grain that was to bring him top honors in the wheat world. The wheat was certified Marquis wheat, raised at the farm of P. J. Rock and Son, just west of Drumheller.

Here on Oct. 25th his sample took second place in the Drumheller Junior Grain Club competition and second place in the Drumheller District Junior Seed Fair. Rickey Sharpe's sample was the only sample better than his own. Sharpe won the Reserve Championship at Toronto.

Referring to Rickey's sample, Ronald stated, "his sample seemed to be more uniform and I guess that is why I was placed second."

4-H Food Club Holds Achievement Day Exercises

ST. ALBERT.—On Friday evening, Nov. 14, the Achievement day exercises for the 4-H Food Club and Junior Sewing Club were held in the Parish Hall. Miss Poth Whaley judged the exhibits and gave a few words of advice to the girls. Demonstrations of table setting by June Sernowski and by Bertha Zylstra and Mary Fennell were greatly enjoyed.

Reports of the year's work were read by Valerie Bellisle for the sewing club and by Margaret Kennedy and Bertha Zylstra for the food club. The singing of club songs and reciting of the 4-H pledge rounded out the program. The girls served lunch to all present at the conclusion of the program.

History Of St. Albert To Be Compiled

ST. ALBERT.—The St. Albert WI are trying to gather historical facts and experiences of the old-timers of this district so they may compile a history of this area.

All those who can recall early experiences are invited to come and donate their information to this at a get-together Nov. 29 from 7 to 5 p.m. at the home of Mrs. Hester Lamer.

Car Goes Out Of Control, 2 In Hospital

WASKATENAU.—Two people are in hospital and a third narrowly escaped injury when a car driven by Cameron Millard of North Dakota went out of control on the highway two miles east of Waskatenau.

In hospital with minor injuries are Cameron Millard and his wife, Mrs. Millard. The third passenger, Walter Melnyk, of Wapreite, en route to an ACT Search for Talent show in Forestburg, was able to catch a ride to Edmonton with a passing motorist and reach his show in time.

EDITORIALS

Efficient Farmers

There is a feeling the British ministry of agriculture has lost a drive to increase farming efficiency in that country. It is claimed that last year the wheat yield was down by about 12 per cent, rye 25 per cent, oats 16 per cent, potatoes by more than 150 thousand tons, while production of mutton and lamb has dropped by eight thousand tons. During the same period 261 million fever eggs had been produced and of the nation's need of 265 thousand tons of butter only six thousand tons had been forthcoming in the country's dairy industry.

It is proposed to conduct farm surveys every three years and those farmers who fail to meet the required standards will be weeded out to make room for more efficient men.

Sodium Fluoride In Water

A number of communities have conducted studies to determine the effect of sodium fluoride in drinking water. In 1944 such a study was begun in two New York communities, Newburgh and Kingston. Kingston citizens were to drink fluoridated water, while Newburgh people drank ordinary water for a period of 10 years.

The 10-year period is not up yet, but the Health Department of the State of New York has reported the interim results. It seems that children who drink water with sodium fluoride added have 47 per cent less tooth decay.

According to Dr. Bruce F. Forsyth, Chief Dental Officer of the Public Health Service, fluoridation is 'the most remarkable public health preventive developed in this country.'

An Experiment In Immigration

Fifty farm families, who lived in the northern part of the Netherlands near Hoozeveen, are in the process of moving to Brazil to found a new community. The Brazilian government has staked off a 12,000-acre tract for the band of 300 who are bringing with them 1,000 cows, 15 keps, 12 tractors, an entire dairy plant, 55,000 pounds of seed and seed potatoes, and 550,000 pounds of fertilizer.

These Dutch families are taking to Brazil capital valued at \$375,000, or approximately \$7,500 a family. This is four times as much as the Dutch government has previously permitted emigrating families to take out of the country.

Generally speaking, the countries of Europe are over-crowded, and it is in their interest to have some of their citizens migrate to another country like Brazil where there is more land than people. There are many sparsely settled countries that need settlers, but the stumbling block is usually the refusal of the over-populated country to allow its citizens to carry capital out of the country.

The policy of the Dutch government is no exception to the general rule: emigrants are not allowed to carry out an adequate amount of capital goods. As a matter of fact, it took a special act of Parliament to arrange this exception to the general policy so that these 50 families could take with them the capital that would be needed to make them an immediate asset to Brazil where capital goods are in short supply.

Brazilian authorities are co-operating with the Dutch by providing interest-free loans to build houses and develop the farms. Brazil is also sharing transportation cost with the Provisional Inter-government of migrants from Europe which has agreed to contribute up to \$50,000.

It is quite possible that this example of planned emigration may set the pattern for future emigration. It is certainly true that this emigration bridehead will provide opportunities for later Dutch settlers who will probably not require as much livestock and equipment to get started.

Loose Housing Of Dairy Cattle

In recent years the question of loose housing of dairy cattle has been to the fore. This housing method of cattle management is not new, indeed the principles of the system have been used for generations. Experiments on sheltering dairy cows in cold sheds were made on this continent almost fifty years ago. More recently, special types of stalls and equipment have been developed to facilitate the milking of cows housed by this method.

With the loose housing system the cattle are not tied but are permitted to move at will in a shelter or barn and in an adjoining exercising yard. The shelter provided consists of a building partially opened at the front, having an inside temperature approximately the same as that outside. Within the shelter a manure pack is allowed to accumulate to furnish a warm bed for the cattle. In this type of unit the labor of moving feed and equipment is greatly reduced because the cows move to the feed or feeders, and to the milking equipment in the milking room.

For some time officials of the Animal Husbandry and Engineering Divisions of the Central Experimental Farm, Ottawa, have been studying this method as opposed to the more conventional system of housing cattle. Available published material on the subject has been reviewed and actual housing units have been established at a number of Experimental Stations across Canada.

The conclusions, along with photographs and plans of a satisfactory layout are contained in a new bulletin "Loose Housing of Dairy Cattle." The subject is completely covered and includes chapters on requirements for a loose housing unit, its management and estimated labor requirements as compared with the more general method of housing.

The bulletin may be obtained from the Information Service, Department of Agriculture, Ottawa by asking for Publication 874.

Air Base At Thule

Announcement that Edmonton is to be on a new California to Europe Airline has sort of "taken the lid off" news of the new U.S. strategic air base now in the process of building at Thule, Greenland, which is only 930 miles from the North Pole. This air base is possible through a treaty with Denmark which owns the great island of Greenland.

A quick glance at a globe of the world will reveal that this air base will make it possible for Canadian and American bombers and fighters to sit on top of the world, relatively near the great Russian land mass.

Constructing an air base at this out-of-the-way place was a difficult job and involved many hardships. Since shipping is blocked for all but two or three months of the year, the bulk of the job of transporting workers and materials has fallen on big transport planes.

Out Of Politics

(From the Calgary Alberta)

Liquor is a touchy political question. In British Columbia as everywhere else, The voters, by a margin of three to two, favored the sale of liquor by the glass in licensed establishments, in a plebiscite held in conjunction with the June election. But the new Social Credit government is not anxious to proceed on its own authority. It is obviously reluctant to implement the plebiscite decision.

So it has turned the question over to a three-man commission, which will recommend legislation and regulations. There can be little criticism of that move. Such problems should be kept separate from party politics, and only such an independent commission can do it.

The Bible Today

What things sever I command you, observe to do: thus shall not add thereto nor diminish from it.—Deuteronomy 12:32.

Danger Spots That Breed Communism

By L. W. NEWCOMBE

Egypt and Iran are considered the world's danger spots today.

In no place on the earth does so much suffering exist as in the Arab East and in such soil Communism seeds itself and thrives.

To have food enough would spell heaven to 80 per cent of the Egyptian people. Ninety-five per cent of the wealth of the country is in the hands of Pashas, landlords, bankers and industrialists who constitute about two per cent of the population of 18 million.

Sixty per cent of the children die before the age of six, and the life expectancy is 32-year average. As one has said, "Allah has rightly made mortality; we would all starve if it were not so." Yes, the people live, starve, sicken and die in terrible misery, while the rich live in the exotic luxury of a gilded fairyland.

Many thousands of dollars are collected from foreigners for aid, but corruption prevents much of it from reaching the needy. Tons of drugs, like quinine, given by America in the war were stolen and sold in the black market. The war against Israel was regarded as but another method of gain. Princes, generals and contractors made fortunes out of it.

The first piece of domestic legislation attempted by Egypt's new strong man, General Nguib, is a land-reform bill intended to break up all estates of more than 200 acres. His second plan is to reorganize and re-equip the Egyptian army. General Nguib has the reputation of being a square-shooter and incorruptible, and he has at least some of the younger officers with him.

As I write the news comes that he has fired the Premier and dozens of other officials, having met with much opposition to his reform program. It looks like the General means to stand firm.

Nguib's intention seems to be to clean up corruption in the army and among the ruling classes, and to strengthen the army to 250,000 trained fighting men. If he succeeds Egypt can become a real power, independent of the West but also of Russia, which latter has been of primary concern to Britain and America. If Nguib enables his power to unshackle hands or is thwarted by some means or other, Russia stands ready to try her more extreme and direct method.

Iran is in a more dangerous position, largely because of years of neglect of the humanities by the ruling classes and by the dominant power in the country, the Anglo-Iranian Oil Co. The oil company had been in a position to direct and force a repression of the abuses and exploitation of the inhabitants. It was about the only business. It furnished the government's income from the royalties it paid. There are 41,000 villages in Iran and 10,000 are owned by landlords; such a state of affairs could not endure forever. As in Egypt, the ruling classes were able to blame the British for the unrest among the peasants rather than their own cupidity. The rights or otherwise of the oil company must now be a secondary consideration to preventing Russia from taking over by internal revolution.

Mossadegh has made some progress in redressing the people's grievances by directing that a larger share of the oil's products go to the worker (nearly 50 per cent), and 10 per cent more to the government. Iran is still a feudal country in that the big holders are still the most powerful and can hardly be controlled by piecemeal measures. Again Moscow stands prepared to aid her methods at the first opportunity.

THE LIGHTER SIDE
One That He Missed
Specialist
"Has your husband any hobbies?" asked the neighbor.
"No," said Mrs. Taggle, "he has rheumatism a good deal, and lives now and then, but he ain't never had no hobbies."
Much Obligated
The telephone rings in newspaper office late Sunday night.
"Is this the religious editor?"
"Yes."
"This is Rev. Dr. Thirdly. You have the notes of my sermons?"
"Yes."
"Will you do me the favor to take Daniel out of the fiery furnace and put him in the den of lions?"
Difference
"Did you enjoy your dinner, sir?" asked the solicitous restaurant proprietor.
"Yes, except the dessert. That was terrible."
"Did you have the plum tart or lemon pie?"
"I don't know. It tasted like glue!"
"Ah! It was the plum tart. The lemon pie tastes like paste."
Yes—but—
She (gushingly)—Will you love me when I'm old?
He—Love you? I shall idolize you. I shall worship the ground under your little feet. I shall—um—er—you are not going to look like your mother, are you?

Young Man in a Hurry
A young man barged into a minister's home, a lovely young lady in tow, and exclaimed, "We want to get married. I beg you to make the ceremony as short as possible. Here are the credentials. They're in order. Those two ladies knitting over there will do as witnesses." The minister, amused, performed the ritual, pocketed his fee, and then protested, "Remember the old adage about marrying in haste, my children. What's your hurry?" The young man, already halfway to the door, said over his shoulder, "We're double over!"

Wrong Party
"Get my bag at once," shouted a doctor to his daughter.
"Why, dad," she asked, "what's the dither?"
A fellow just telephoned who says he can't live without me," explained the doc, grabbing his hat. His daughter heaved a vast sigh of relief. "Hold it, dad," she said quietly, "I think that call was for me!"

BANGS DISEASE OF CATTLE
No. 5 in series by Dr. E. A. Ballantyne, Director of Veterinary Services, Alberta Department of Agriculture
Calfood Vaccination Experiment in University of Alberta Herd
In 1940, 1941 and 1942 there were many dead calves born prematurely in the University of Alberta herd. A blood test by a veterinarian showed that the cause was Bang's disease. Calfood vaccination had just been recognized, so it was decided to carry on an experiment in cooperation with the veterinarians of the Alberta Department of Agriculture. All heifer calves were vaccinated at the proper age to build up a resistance against Bang's disease. When these animals matured and went into the milking line or beef herd, infected cows were sold for slaughter. There has been no abortion due to Bang's disease since 1942. (University and ranchery in Alberta have had equally as good results.)
A Bang's infected cow usually only loses one calf and then builds up a natural immunity so that she gives birth to normal calves after that. The odd cow becomes ster-

ile—but not many. Therefore, the University kept their infected cows until they could be replaced with vaccinates. In this way, more calves were obtained of their good cows. If the infected cows had been slaughtered in 1942, the cattle industry would have been the loser.
Good herd management practices, such as isolating cows at the time of freshening, blood testing additions, etc., were followed. This was important and helped a great deal in keeping the disease under control.
At end of eight years the University concluded that calfood vaccination was an economic and practical means of helping to control Bang's disease. Don't wait. Start building up a Bang's resistant herd NOW. Contact your veterinarian or list your calves with your District Agriculturist or Agriculture Service Board.
The Alberta Department of Agriculture recommends calfood vaccination coupled with good herd management as an economical and practical way to prevent and control the disease. The co-operation of all cattlemen will be greatly appreciated in building up Bang's resistant herds by having all heifer calves vaccinated this Fall.

\$1 for Favorite RECIPE

BANANA CAKE
1 1/2 cups one-elfed cake flour
1 teaspoon baking powder
1/2 teaspoon baking soda
1/2 teaspoon salt
8 tablespoons butter or margarine
1 cup fine granulated sugar
1 egg, well beaten
1 cup mashed ripe bananas
1-3 cup sour milk
1 teaspoon vanilla
Grease an 8-inch square cake pan and line bottom with greased paper. Pre-heat oven to 350 degrees. Sift flour, baking powder, soda and salt together three times. Cream butter, gradually blend in sugar. Add well-beaten egg, part at a time, beating well after each addition. Measure mashed banana and mix in sour milk and vanilla. Add flour to creamed mixture about a quarter at a time, alternating with three additions of banana mixture and combining lightly after each addition. Turn into prepared pan. Bake in pre-heated oven about 45 minutes.

Dates Set For Group Annual Meetings Of Sturgeon School Sub-Divisions

(Continued from Page 1)

The Divisional Board had passed a resolution providing for two annual sub-divisional meetings to be held in 1952, instead of six. The Minister of Education had given his approval of this. Consequently the Divisional Board decided to set the time and place for these meetings.

On the motion of Mr. Allen it was decided to hold one meeting at Gibbons in the high school on December 6 and one meeting at St. Albert in the new school on December 8, 1952.

The meeting at Gibbons will be for sub-divisions Nos. 4 and 5. This will be a nomination meeting, as the trustee for sub-division No. 5 comes to the end of his term in December, 1952. He will continue in office until either he is re-elected, or a successor is elected.

The meeting at St. Albert will be for sub-divisions Nos. 1, 2, 3 and 6. This will also be a nomination meeting, as the Trustee for sub-division No. 3 comes to the end of his term in December, 1952. He will continue in office until either he is re-elected, or a successor is elected.

The Divisional Board hopes to have a good attendance at these meetings. It is an experiment, and on the outcome will depend whether to adopt this same method in future years, or to revert to the old method of having six annual sub-divisional meetings.

The notice of these meetings will be advertised in the *Kalcanon Sun*, *St. Albert Gazette*, *Morningville Journal* and the *Legal Record*.

Printed notice forms will also be sent to all operating schools in the Division and will also be posted up in a conspicuous place near each post office located within any town or village district adjacent to the sub-division or subdivisions.

New school for Bon Accord. On the motion of Mr. Allen it was decided to advertise tenders for the Bon Accord School as soon as specifications are complete. The closing date for tenders to be the usual period allowed after advertising as required by regulations of the Department of Education.

On the motion of Mr. Ross it was decided to engage Mr. Hunting of Legal to insulate the Verner School; replace any broken windows, tighten and caulk all windows and install a new Warm Heating Heater; all for the sum of \$375.00.

Fire protection—Legal School. A letter from the Fire Commissioner of the Province recommended correct types of fire extinguishers for the new school at Legal, and would assist Divisional Board in placing same in the best places in the new schools after studying the plans. Mr. Jewers, School Buildings Manager to be asked to attend to this.

On the motion of Mr. Cunningham it was decided to accept the tender of Alberic Borlee for the Granger school house. The tender was \$500.

Also to accept the tender of Albert Paquette for the large barn at Granger S.D. Tender was \$150.00.

Also to accept the tender of Thomas McNamara for the small barn at Granger S.D. Tender of \$75.00.

The tender of Joseph Nault in an amount of \$350 for the Federah school house was not accepted.

Tender of Harry Szlabey for Fairydell School and site was not accepted.

Raymond Prefontaine has made a verbal offer of \$125.00 for the Fairydell school house. It was decided to accept this offer on receipt of confirmation in writing.

A delegation from Durnholm School District interviewed the Board. The delegation was assured that the requests made would be given careful consideration by the Divisional Board.

On the motion of Mr. Charvet

it was decided to send the sum of \$200.00 to Rev. Father Mailbox to cover cost of heating the hall at Vinny which is used regularly by students of Durnholm School for school activities.

On the motion of Mr. Allen it was decided to accept the offer of \$510.00 for the Federah School, made by the Greek Catholic Church; also to accept the offer of Paul Kilarsko of \$80.00 for the coal shed at Federah. The school site to be leased at a nominal rental, title to be retained by the Divisional Board.

A letter from Mrs. Eunice M. Atkinson representing the F.W.O.A. was read to the Board. It asked for consideration of a plan for renting school books to students in order to save costs to parents. As this plan would involve a considerable initial outlay, the Divisional Board is withholding its decision pending a better financial position.

On the motion of Mr. Allen it was decided to pay tuition fees for students of the Sturgeon School Division who attend high schools outside the Division (and who live in districts more than five miles from a divisional high school) on the basis of credits taken, providing such credits are according to the regulations of the Department of Education.

On the motion of Mr. Charvet it was decided to send a letter to the Municipal District of Morinville requesting that a survey be made of the school property and grounds adjacent to the Durnholm School at Vinny, with regards to drainage.

On the motion of Mr. Cunningham it was decided to send a letter of appreciation to Mr. Stanley Walker for his co-operation in the matter of the school well at Calahoo.

On the motion of Mr. McCue it was decided to proceed to centralize at Horse Hill; a four classroom school to be built with high school facilities. Any costs over the \$34,000.00 provided for in By-law No. 7 to be borrowed by loan or debenture—in 1953.

On the motion of Mr. Ross it was decided to request Keeler's Sheet Metal to give a report on the furnace in the brick school at St. Albert. If found to be beyond repair, to submit an estimate for a new furnace.

Mr. Ross gave Notice of Motion to the effect that the Divisional Board decide to give five bursaries for a period of three years to students of Sturgeon School Division with good records, pleasant personalities, and promising teaching aptitudes.

On the motion of Mr. Cunningham it was decided to set the date for the next meeting for Tuesday, December 11.

ERNEST MEADEN,
Secretary-Treasurer.

Sturgeon School Division No. 24

NOTICE OF

ANNUAL MEETINGS

for All Subdivisions

LETTERS TO LOUISA

Dear Louisa:

Some wives and mothers enjoy being self-sacrificing. They love to be looked upon as martyrs and known as women who give up all for their children and husbands. Let me be put down as one who does not—who thinks that the best way to spoil a family is to be a first class servant and doorman for them.

However, protest as I may, the entire family has been cast for the part and I find it difficult to escape.

Let me explain. The two younger children are too small to be left alone but, suppose there is a concert I wish to hear. The three older children have engagements and father has to attend one of the various meetings he attends each week. Of course, the children have had dates several times this week already and this is the only concert I'll hear for several months but not one of them or their father dream that they should give up the evening so that I can get out.

Father has an opportunity to go

with a friend on a nice trip with half of the ordinary expense. It seems too good a chance to miss, so he goes, although he feels that he can't afford it.

Money is very scarce, but the two girls wish to go on a sorority party at the beach. Father realizes that they are only young once so he rustles around and gets up the money. Ted, the oldest, trades the car for a better one but lacks fifty dollars. It is a very good bargain, so Father naturally comes to his aid.

But, in the meantime, we are invited to hear a famous artist perform and to attend a dinner afterwards in his honor in a neighboring city. I am thrilled and begin making my plans.

Father says he is sorry to disappoint me but expenses have been so heavy that he just doesn't see how we can afford the trip. It may cost all of ten or fifteen dollars. Of course, it happens to be the only expense that I have been concerned in but if I should insist on going, six pairs of hurt and resentful eyes would gaze upon me and marvel at my selfishness and lack of consideration.

"Can you bear this?"

CONFUSED.

Answer:

You undoubtedly started your married life of togetherness in an effort to live up to your husband's ideal of womanly virtues you probably let him think you enjoyed self-sacrifice if it was for him, and before you knew it, you were old lady self sacrifice in person. The children probably followed Father's lead and as there is nothing quite as convenient to have around the house as a goat, they refuse to let you give up the part.

The time has come to make them realize that regardless of the fact that you are a mother who has her motherly best interest at heart, you are also a human being who has the same capacity for enjoyment that other humans, such as boys, girls and men, have. That while it is true that happiness comes from within, you would also enjoy a little of that which comes from without and that it is now their time to try the uns from within, for a while, at least.

I doubt if you will succeed but I wish you luck.

LOUISA

Drank too Much; Case Dropped

EDMONTON—A charge of attempted suicide against a 22-year-old Edmonton man who recently tried to leap from the High Level bridge was withdrawn when the magistrate said the accused was "too drunk to know what he was doing."

The man was prevented from making the jump by a taxi-driver, who had driven him and his girl friend to the bridge.

Defence counsel said the man drank an "unusual" amount of liquor prior to making the suicide threat. The magistrate described the amount as "stupendous."

CERTAINLY . . . Sir!
You Are Always Welcome

\$1 for EMBARRASSING MOMENTS

The Editor will pay \$1.00 for every item published on "The Most Embarrassing Moment of My Life." To qualify, items must be true, personal incidents. Address: "Embarrassing Moments," P.O. Box 4163, South Edmonton.

This happened to me when one summer day I was washing clothes and I was in a terrible mess. While expecting my sister and brother-in-law, a truck just like theirs was coming to our place, so I went outside, carrying the tub out and at the same time to meet them. Was I ever embarrassed when the truck came near and there were two strangers in it. I didn't know whether to run away or just stand there.

C. G.

Egremont.

Having moved into a furnished apartment, I was busy scrubbing it when a new neighbor came to call. After introducing myself, I remarked that the former tenant must have been lazy to leave the apartment so dirty. "I lived here before!" she retorted. "I moved two days ago!" P. T.

One of the most misleading factors in any national election is forecasts.

Completely New Plymouth Models Now On Display Throughout Canada

The new Plymouth models for 1953 are on display today in dealers' showrooms throughout Canada. These are the most completely new Plymouths to be presented to the public in the quarter century since the original models rolled off the assembly lines, according to John C. McGuire, Chrysler Corporation of Canada, Limited, director and general sales manager of the Chrysler-Plymouth-Fargo division.

New body designs give a long, low appearance. The hood is lower and more streamlined, affording greater vision of the road ahead. A new one-piece curved windshield is optically designed to minimize reflections, according to the Chrysler engineers, and a wider wrap-around rear window greatly improves visibility to the sides and rear. Total glass area has been increased almost 16 per cent for a virtually 360 degree vision range.

While both overall length and height of the new Plymouth have been reduced for greater ease of handling and improved appearance, the passenger room in both front and rear compartments has been increased in the new design. There is more leg and head room, and the rear Plymouth seat is over eight inches wider than that of the previous model.

The new Plymouth features more sweeping rear fenders, and a wide rear deck. The new trunk has been increased 30 per cent in capacity, with hinges spaced at the outer edges so they cannot close down on the luggage when the lid is shut.

One of the most outstanding improvements, say Chrysler officials, is the new Plymouth Balanced Ride. By a new system of springing and weight distribution the cars are balanced against roll, pitch, and bounce. Increased stability on turns, and consequent easier handling of the car is said to result, with much greater smoothness when travelling over rough roads.

Seven different body styles are offered in the two new Plymouth lines for 1953. In the Cambridge line are the Four Door Sedan and the Suburban. The Cranbrook line features the Four Door Sedan, Club Coupe, Convertible Coupe, Belvedere Hardtop and Suburban.

An innovation in all models having a divided front seat is the new 1-2-3 seat back division. Instead of the traditional center division, to permit easier entrance

and exit of the rear seat passengers. Two can sit comfortably in the front seat while the remainder of the seat back is tilted forward for easier back-seat access.

Beauty and utility combine in the new instrument grouping, which occupies a long, horizontal island set into the instrument panel itself. A thoughtful touch is the centre-mounted glove compartment, convenient to both passenger and driver.

Other interesting features of the new Plymouth include wider rear doors on the sedans, which allow much easier entrance and exit, a new wider frame and new spring design which, it is said, gives additional resistance to road twist, and swept-back windows which provide rear-seat passengers with increased visibility. A new rear location of the gasoline-tank filler cap permits easier filling from either right or left.

Eight standard body colours are offered, with two metallic colours at extra cost. A choice of 16 two-tone colour combinations may be had at extra cost. Overdrive and Lexol-tinted safety glass also are available for all models.

Population Gaining By 1,149 Each Day

OTTAWA (BUP) — Canada's population increases by 1,149 per day, the Bureau of Statistics reports.

The Bureau said that during the census year of June 1, 1951, to June 1, 1952, there were 1,936 births and 332 deaths each day. Immigrants arrived at the rate of

TO SERVE IN FRANCE—Leading Aircraftman Arthur L. Morsey of Legal, Alta., an Aero Engine Technician with the RCAF's 430 Squadron at North Bay, Ont., will be among personnel moving to Europe late this month when three RCAF Sabre-jet squadrons will fly the Atlantic via Greenland, Iceland and Scotland to Gros Tenguin, near Metz in northeastern France. The two other squadrons in the movement are 415 Squadron, Uplands, Ont., and 421 Squadron now based at St. Hubert, Que. On arrival at Gros Tenguin, the three squadrons will bring Canadian fighter strength in Europe to six squadrons; half of Canada's proposed air contribution to NATO. Three squadrons have been stationed at North Luffenham, England, for some months. The peace-time presence of Canadian fighter squadrons in France will mark another milestone in RCAF history as will the Atlantic crossing, en masse, of more than 60 aircraft in "Operation Leaf Frog II." (National Defence Photo).

590 a day, and emigrants left on an average of 145 daily. The figures left a net population gain of more than 419,000 per year.

WHAT'S IN A NAME ERSKINE

Erskine was formerly known as Liberal until 1906. The village, some 40 miles east of Lacombe, is located in a farming area.

FRANCHERE

Named after Gabriel Franchere who travelled east from the Columbia River via Moose Lake in 1814; named by the CNR.

DELBURNE

Approximately 25 miles east of Red Deer, Delburne, was known as Gaetz Valley Post Office until 1911 when it was changed to the present name.

The Grand Trunk Pacific Railway completed their survey and founded the township of Delburne in 1912. Before the railway came, Delburne boasted a real estate office; a lumber yard; two hard-

\$1 for BRIGHT SAYINGS

The Editor will pay \$1.00 for each child's saying printed. To qualify, item must be true, personal remarks of a child known to the writer. Address: "Bright Sayings," P.O. Box 240, St. Mary's, Edmonton.

While I was away my small boy and girl baked cookies. When returned Shirley, my three-year old girl said: "Mama, Jimmy baked cookies. He was going to bake a cake, too, but he couldn't find the pattern."

ware stores; one bank and one doctor, as well as a grain elevator belonging to the UGG.

The population of the village in 1940 was 370. Farming and grain growing are the main occupations carried on within this region.

Legal News Briefs

Sympathies are extended to the bereaved members of the family of Mr. Wilfrid Meunier who passed away in Edmonton Sunday, Nov. 9 and whose funeral was held on Nov. 12.

Mr. Lionel Forcade of this parish was hurried to the General Hospital on Nov. 10 with bone fractures to his back. His condition is improving gradually.

Mr. Isidore Dechamplain returned last weekend from a two weeks trip to the coast where they visited relatives.

Mr. and Mrs. Fred Henry are expected home shortly from a trip to California.

We have heard that big game experts were at Edson a few weeks ago for a hunting trip. Robert Montpelit is reported to have been the lucky one who brought back a big moose.

Mr. and Mrs. Edmund Davis have left Legal to reside at White Court for the winter months. And Mr. and Mrs. Merckosi have left their farm home and have moved to Westlock for the winter.

The annual parochial visit was completed on Nov. 17. A report of the total population of the parish will be given shortly.

Good reports concerning the construction of the rural electrification lines have been received. It is to be hoped the work will be completed in the near future so that farmers of this district will be able to make use of the service before next spring.

After more than a month of exceptionally warm weather, Old Man Frost has made his appearance and is here to stay for a few months. Curling and skating will be possible shortly as the weather is now suitable for making ice.

The Nampa Airport seems to have attracted a good many labor-

ers even among local farmers who have taken advantage of the mild weather and sought temporary employment at the construction of the new airport.

St. Albert News Notes

Mr. and Mrs. Maurice Roberge became the proud parents of a baby daughter Nov. 11.

Mr. and Mrs. Tom Barry, Sandra and Jeanette have left for a two week holiday at the west coast.

The badminton season has started. Games are played every Tuesday and Thursday between 8 and 10 p.m. in the Community hall.

The municipal seed cleaning plant at Morinville was broken into last week and a safe was stolen. Those involved have been found and pleaded guilty.

Roland Debus and his new bride spent several days last week at his sister's home, Conal, and Mrs. Riley.

Christening services were held on Sunday for the infant son of Arthur Durocher, baby named George Brian, and for infant daughter of B. Grenier, baby named Cecile.

Funeral services were held Monday morning for the late Edward LeClair. The deceased died last Thursday from a heart attack. He was 55 years of age. He was a brother of Mr. Jack LeClair.

The Crovier brothers are piping gas into their homes from their own well.

Edgar Crozier had the misfortune of having three fingers crushed by a grain auger.

Mr. and Mrs. Allan McDowell and Mr. and Mrs. Cliff Crozier attended the Old Timers' banquet at the Palliser hotel in Calgary Nov. 13.

Mrs. W. Quimet underwent a serious operation at the General Hospital. She is doing fine. The Home and School Associa-

10 Bushel Quotas At Stony Plain, Westlock

The Canadian Wheat Board has raised delivery quotas at some Alberta points, with Stony Plain

tion started their regular meeting for this year on Wednesday.

The Tile Works have been completely laid on the first floor of the new school. Workers are now finishing the painting job.

The Student's Union held a Sadie Hawkins dance in the new school last Friday. Mr. and Mrs. Holditch, Mr. and Mrs. Guy Rabaud and Fr. Tardif were in attendance.

Thirty-five Civil Defence members began the basic first aid classes on Thursday, Nov. 13, under the able instruction of Mr. W. Sears of Edmonton.

The Women's Institute will meet at the home of Mrs. N. M. Ross on Tuesday, Nov. 25 at 8:30 p.m.

and Westlock each now having issued only when special permits been brought up to 10 bushels per acre. A few points have 12 and 15 bushel quotas.

Following points in Alberta have an eight-bushel quota: Bellis, Bittern Lake, Calahoo, Egremont, more than eight-bushel quotas Hairy Hill, Kavanagh, Leduc, cannot be made without special Morinville, Sedgewick, Spruce permission. Shipments of high Grove, Tees, Three Hills, Two grade Spring wheat, durum wheat Hills, Vermilion, Villeneuve, and malting barley will be authorized. Whitford.

ALBERTA WHEAT POOL Information

The Alberta Wheat Pool's assets include 485 country elevators with 410 annexes in this province and also in the Creston and Dawson Creek localities in British Columbia, the total capacity being 23,844,850 bushels. The Pool also owns a 5,150,000 bushel terminal at Vancouver and a 2,000,000 bushel terminal at Port Arthur. The grand total capacity of the entire system is 40,994,850 bushels.

Since its inception Alberta Wheat Pool has made the following payments:

Patronage dividends in cash	\$ 5,099,683
Interest on reserves paid prior to 1929	631,253
Repayment of debt to government	8,855,629
Redemption of reserves	6,980,189
Total	\$21,566,754
Patronage dividend paid in reserves	5,983,644

The ownership of the Alberta Wheat Pool and Pool Elevators rests with farmer reserve holders. The farmer can become a member of the Alberta Wheat Pool by delivering 500 bushels of grain to a Pool elevator and purchasing reserves to the value of \$5.00.

The Pool policy provides for the payment of patronage dividends, partly in cash and partly in reserves, in years when earnings are sufficient to justify such action. Members can increase their reserve holdings by patronizing Alberta Pool Elevators.

This substantial Pool elevator system is a valuable property. It is operated for the benefit of the membership.

The Wheat Pool's objective is to keep handling charges as low as possible and return excessive earnings in the form of patronage dividends, also to redeem reserves from members who have ceased to farm.
